Interior Doors must be sanded with 220 grit sandpaper to remove all scuffs and handling marks as well as any imperfections in factory sanding. Once sanded, brush door clean of dust or use compressed air. Water in the lines of compressed air can create spots in the stain and will void the warranty. If imperfections become more visible after staining they must be corrected before the top coats are applied as they cannot be repaired afterwards. Do not continue finishing if appearances of the first door doesn't meet expectations. Doors must be finished on sides and edges including the top and bottom. Doors must be prefinished within 15 days or the warranty will be voided.

Manion's will **NOT** be responsible for the appearance of any field finished doors.
